Hi Becky and Jennifer,

Attached are the draft Response to comments and the Comments submitted by AES Redondo Beach on the permit which is scheduled for consideration during the June 9th Board Hearing. There is a copy of the draft permit available on the Los Angeles Regional Board website under tentative permits. Becky, the comments that we specifically would like your input on have been highlighted. Thom is working on incorporating the changes specified into the permit and the TSO. Please provide your input on or before May 18th if possible.

Thanks in advance for your assistance with this.

Cassandra

Attached for legal and EPA review are our draft response to comments for Redondo Beach Generating Station. For reference I have also included the comment letter from the discharger. No other parties submitted comments. I have highlighted the comments for which we are specifically requesting EPA input.
